

SAURABH GUPTA

Software Development Engineer (SDE) | CS Mock | IIT Kharagpur | Immediate Joiner

Bangalore | 9450174026 | saurabhguptait27@gmail.com | [LinkedIn](#) | [Portfolio](#) | 2+ yrs of exp

WORK EXPERIENCE:

CS Mock | Software Development Engineer | March 2022 – April 2024 | Noida, India

- Platform Development: Led the architecture and co-development of one major internal platform and three external platforms tailored for distinct use cases: internal operations, industry experts, jobseekers, and partners. This initiative enhanced operational efficiency and stakeholder engagement.
 - Algorithm Engineering: Developed a backend scheduling algorithm that optimizes candidate-interviewer matchups based on over 19 parameters, achieving a 99th percentile latency of 102ms. This includes an integrated notification system enhancing real-time communications.
 - System Optimization Strategy: Implemented a scalable strategy to enhance system availability and performance, focusing on robustness and maintainability.
 - Technical Assessment and Workflow Optimization: Structured and revamped the technical assessment process streamlining the workflow stages. This restructure resulted in an 82% improvement in feedback response times.
 - Technical Proficiencies: Proficient in Javascript (ReactJs), Java (Spring Boot), Node.js, MySQL, Redis, Nginx, Tailwind, Socket.io and CronJob, with extensive experience applying these technologies in diverse project environments.
-

PROJECTS AND CERTIFICATIONS:

CSmock | Fullstack Project | April 2024 | [Project Demo](#)

- Redeveloped a streamlined version of the **CSmock application** as a hands-on project. **Repositories**: [Frontend](#) and [Backend](#).
- Implemented robust user authentication and authorization to secure access, and optimized backend operations to enhance performance and reliability.

nextMEET | Next.js Project | June 2024 | [Project Demo](#) [Repository](#)

- Built with Next.js, nextMEET is a video conferencing tool that enables users to securely log in, create meetings and access various functionalities like recording, screen sharing and managing participants.

Videotube | Backend Development Project | April 2024 | [Repository](#)

- Developed core backend functionalities using Express.js and MongoDB, enabling video sharing, subscriptions, and interactive features like comments and likes.

Programming with Python Professional Certificate – OpenEDG | [Certification](#) | June 2024

Docker Foundational Professional Certificate – Docker | [Certification](#) | June 2024

SQL and Relational Databases – IBM Developer Skills Network | [Certification](#) | Jan 2024

EDUCATION:

- IIT Kharagpur | M.Tech | July 2019 – June 2021 | CGPA: 7.4
 - JSSATE Noida | B.Tech | July 2014 – June 2018 | PC: 76%
-

TECHNICAL SKILLS:

Javascript, TypeScript, React, Redux Toolkit, Next.js, Node.js, Express.js, HTML5, CSS3, Tailwind, Java, Python, MongoDB, MySQL, Webpack, GraphQL, Docker, AWS, REST API, OOP, Jenkins.
