SUMMARY

Software developer with fundamentals in front-end and back-end web development. Applying for the position of Software Developer to utilize my knowledge in developing high-quality software solutions and contribute to the success of a dynamic development team.

EDUCATION

Master Of Technology

Indian Institute Of Technology • Kharagpur • 2021 • 7.4

Bachelor Of Technology

JSS Academy Of Technical Education • NOIDA • 2018 • 76%

Intermediate

Minor in Mathematics • Children Senior Secondary School • UP • 2013 • 89.8%

EXPERIENCE

Web Developer

- Gained hands-on experience in both front-end and back-end development through 2 projects.
- Proficient in 2 programming languages - Javascript and Java, and developed fundamental knowledge of 4 OOPS principles.
- Developed fundamentals in Data Structures and Algorithms through solving 100+ problems on various coding platforms. Applied logical thinking and analytical capabilities to overcome challenges, resulting in a 70% success rate in problem resolution.
- Possess basic knowledge of 2 backend frameworks - ExpressJS and Springboot.
- Developed a strong understanding of 2 databases - MySQL and MongoDB.
- Acquired fundamental knowledge of Cloud Technology and 3 services such as IaaS, PaaS, SaaS.

PROJECTS

PlayMe Music App

December 2023 - December 2023

- Led the project from conceptualization to 100% implementation.
- The PlayMe Web App serves as an immersive music player with a multipage structure.
- This project employs 3 technologies - HTML, CSS, and JavaScript.
- This project showcases my proficiency in front-end development and my ability to create a seamless user experience for music enthusiasts.
